

Hawaiian Kingdom Update FEBRUARY 2019

Hawaii in Transition

by H.E. Leon Kaulahao Siu,
Minister of Foreign Affairs
The Hawaiian Kingdom

Prepared for the 40th Session of the UN Human Rights
Council Palais des Nations, Geneva, Switzerland

The Hawaiian Islands is not a part of the United States of America! Over the years, through a series of illegal acts, the United States created the illusion that Hawaii was happily adopted into the United States, when in reality, Hawaii was abducted... kidnapped!

The challenges before us are:

- To liberate our country from the grasp of the abductor... to free the Hawaiian Islands from being held captive by the United States.
- To move forward with rebuilding our country and our lives... to reactivate our Kingdom of the Hawaiian Islands as a fully functioning independent nation.

There are two fronts in which we are working to liberate our country:
at home in Hawaii... and internationally.

On the home front...

Understanding that it is primarily up to us to liberate our country, Hawaiian nationals are engaged in the following activities at home...

- Building the citizenship base (the body politic) of our nation, with educational programs, workshops, strategy sessions, media outreach and special events to reactivate our Hawaiian national identity and build the people's confidence that we are eminently capable of running our own country. This is about *Hawaiian nationality*, not *Hawaiian ethnicity*.
- Raising awareness and assuring our people that reactivating our nation's independence is vital to our future survival and prosperity... and that it is achievable.

- Creating wide public acceptance and participation envisioning an independent Hawaii, using all aspects of the media to coalesce the movement around our true identity and history, our culture, our character, our economic potential and our vision of a free Hawaii.
- Coordinating a Hawaiian nationalist/activist network in the islands and overseas to peacefully promote our independence through acts of resistance, media events, celebrations, informational rallies, etc. to persuade the US to peacefully and gracefully withdraw from the Hawaiian Islands.
- Revamping the education system in Hawaii to undo 125 years of Americanizing propaganda and indoctrination; to bring new respect, pride and appreciation for the achievements and legacy of our nation; encouraging and utilizing the resurgence of the Hawaiian language and culture among our younger generations.
- Creating a Hawaii national transitional authority to develop a road map for the transition of our country from being dependent, foreign-operated by the U.S., to being self-reliant, Hawaiian-operated. The transitional authority would be visionary, inclusive, innovative and bold in carrying the responsibility to actualize a truly independent nation..

The movement in the Hawaiian Islands to free Hawaii is growing and advancing. It is expected that 2019 will see significant breakthroughs as discussions and constructive actions are openly developed, shaped and implemented.

On the international front...

The following are items that Hawaiian diplomatic representatives are pursuing through international organizations such as the United Nations, to assert the Hawaiian Kingdom's sovereign status and rights as an independent state...

- Calling on the UN for a review (and possibly annulment) of UN General Assembly Resolution 1469, adopted by the General Assembly in December, 1959, that accepted the false report by the U.S. alleging the people of the Hawaiian Islands had freely chosen to be the 50th state of the United States of America.
- Asserting the inviolable rights of the lineal Heirs and Descendants of the original Hawaiian land title holders, to stop the courts of the "State of Hawaii" and the USA from continuing the century-long practices of wrongful taking, dispossession and alienation of Hawaiian lands and awarding them to foreign interests.
- Exposing the myth of annexation — that the United States' never acquired the Hawaiian Islands, therefore, the U.S. presence in the Hawaiian Islands is patently illegitimate and its operations in the Hawaiian Islands is nothing but a slick criminal enterprise.
- Revealing the United States' control of the Hawaiian Islands constitutes ongoing, serious violations of international laws, particularly those prohibiting the imposition of foreign (U.S.) puppet institutions, laws, taxation, economic control, military bases, etc. constituting foreign-state-instituted policies to pillage, abuse and extinguish the Hawaiian people's nationality, civil, political and property rights.
- Revealing the systemic discriminatory practices of the U.S. against Hawaiian nationals (Hawaiian Kingdom subjects), resulting in persecution, arbitrary detention, confiscation of property, ruinous fines, penalties and punishments; the destruction of families and other violations of human rights indicative of genocide.

- Protesting the extreme threat of nuclear annihilation of the Hawaiian Islands — all the inhabitants and places of habitation — caused entirely by the United States’ criminal hyper-militarization of our neutral country in clear violation of International Laws, Humanitarian Laws and customary moral conduct.
- Petitioning the UN for non-member state status, based on the fact that the Hawaiian Kingdom is a nation in continuity with treaty relations with 173 of the 193 member states of the UN (46 direct treaties and 127 with indirect (successor) treaties).
- Filing an international ‘disputed lands’ claim (against the U.S.) encompassing the entire Hawaiian Archipelago, to challenge the United States to produce evidence of its acquisition, or abandon its claim of jurisdiction over the lands and territorial waters of the Hawaiian Islands.
- Forming a *peaceful, “Free Hawaii” movement* to initiate and coalesce international advocacy for the reinstatement of the Hawaiian Islands as a sovereign state... to resume its proper and equal station among the nations of the world.
- Initiating a *Treaty of Peace* for the normalization and resumption of proper, friendly relations, first, between the Hawaiian Kingdom and the United States of America, and then the rest of the world.

We welcome all who may want to help in discussing, formulating and implementing our plans to normalize and resume friendly, productive relations with the international community.

— *Aloha!* —
